PHILIP SIMPSON
Software Engineer

SUMMARY

Team-player and detail-oriented software engineer with a deep interest in Web3 and FinTech. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company that combines culture, camaraderie, and vulnerability.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

February 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full-stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Bustin' Burgers (Fullstack Web App) – Users can view the responsive website with a menu, restaurant location, optional contact submission and about us page.

PGA Player Stats - 2021 (Web API) – Users can select one of the top 200 PGA Tour Players name from the 2021 season and see their point stats.

StoryBooks (Server Web App) - Users can log in with google and choose to create, edit, delete or view other users stories

Other Projects: Los Angeles StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more

Full-Stack Web Developer and Co-Founder at Asc3nsion Academy | Los Angeles, CA

May 2020 — Present

Created an online, and NASM third party affiliated education program, as well as a full-stack web application and responsive website that targets ambitious athletes to develop life skills and reach higher levels of performance.

Professional Golfer on Golden State Tour | San Jose, CA

August 2019 — April 2020

Established a foundational understanding of the importance and usefulness of technology in relevance to consistent improvement as a top-level athlete.
